PROFESSIONAL SUMMARY

PMP and CSM-certified SaaS Implementation Specialist with over 10 years of experience delivering enterprise software solutions across Healthcare, Finance, Insurance, and Retail sectors. Proven expertise in end-to-end implementation of ServiceNow, ERP systems (SAP, Oracle, Workday), Learning Management Systems, and CRM platforms. Skilled in Agile delivery frameworks, stakeholder management, technical configuration, data migration, and user adoption strategies. Recently completed MS in AI with a strong focus on bridging technical teams with executive business goals to ensure high-value deliverables and successful go-lives.

Experienced with leading technical projects to successful completion. Utilizes advanced project management methodologies to streamline processes and improve efficiency. Track record of fostering collaborative environments and ensuring effective communication among stakeholders.

Technical professional with proven track record in project management and technology integration. Known for driving successful project outcomes through effective planning and execution. Committed to fostering team collaboration and adapting to changing project needs. Expertise in risk assessment, resource allocation, and stakeholder engagement.

Technical management professional prepared for demanding projects. Proven track record in driving technology initiatives, ensuring timely delivery, and aligning with business goals. Strong focus on team collaboration and delivering impactful results. Adept at navigating dynamic environments, leveraging expertise in project planning, risk management, and stakeholder communication. Known for adaptability and reliability in achieving project success.

SKILLS

- Project Management Tools: JIRA, Confluence, MS Project, Asana, Trello, Smartsheet, Azure DevOps, Monday.com
- Data & Analytics: Python (Pandas, NumPy, Matplotlib), SQL, Power BI, Tableau
- Business & Process Management: Agile, Scrum, Kanban, SDLC, ITIL Framework, Lean Six Sigma
- AI & Machine Learning Tools: TensorFlow, PyTorch (basic), Scikit-learn, OpenAI API, Azure ML Studio, AWS Google Vertex AI
- Cloud & DevOps: Microsoft Azure, AWS, Google Cloud Platform (GCP)
- Documentation & Collaboration: MS Office Suite, SharePoint, Miro, Notion, Slack, Google Workspace

- Compliance & Security: GDPR, HIPAA, SOC 2, ISO 27001 Standards
- Technical project planning
- Stakeholder communication
- Programming Languages: Python, SQL, R, JavaScript
- Project leadership
- Scrum master

WORK HISTORY

TECHNICAL PROJECT MANAGER

08/2025 to CURRENT

Kroger Technology & Digital | Ohio

- Managed enterprise IT and digital transformation projects supporting supply chain, merchandising, and retail operations.
- Oversaw AI and analytics-driven initiatives to enhance inventory forecasting and customer engagement.
- Led Agile delivery frameworks using Scrum and Kanban methodologies, improving project efficiency by 30%.
- Collaborated with business leaders to translate strategic objectives into data-driven project roadmaps.
- Led system modernization efforts migrating legacy applications to cloud-based environments (Azure & AWS).
- Developed project charters, timelines, and risk management plans aligned with corporate governance.
- Established KPIs and performance dashboards in Power BI for real-time project visibility.
- Facilitated Agile ceremonies (sprint planning, retrospectives, stand-ups) to ensure consistent team collaboration.
- Coordinated vendor management and contract negotiations for software and technology partnerships.
- Managed stakeholder communication across multiple business units and technology departments.
- Directed testing and QA efforts ensuring high system reliability post-deployment.
- Delivered AI-enabled customer feedback analysis tools, enhancing satisfaction tracking accuracy.
- Created risk registers and mitigation plans to proactively address project challenges.
- Ensured compliance with ITIL and SDLC best practices for technology project management.

PROJECT MANAGER, AI

08/2024 to 01/2025

Liberty Mutual Insurance | Boston

- Led enterprise-wide Intelligent Automation (IA) programs integrating RPA, AI, and ML solutions across underwriting and claims operations.
- Directed cross-functional Agile teams of developers, analysts, and process engineers to deliver scalable automation solutions.

- Oversaw end-to-end delivery of UiPath, Automation Anywhere, and Power Automate solutions.
- Collaborated with stakeholders across IT, Operations, and Compliance to align automation initiatives with corporate strategy.
- Designed and managed roadmaps, sprints, and deliverables using JIRA and Azure DevOps.
- Coordinated vendor relations and third-party integrations for AI and automation tools.
- Designed automation performance dashboards in Power BI to track KPIs and business outcomes.
- Supported integration of machine learning models into automation pipelines for predictive decision-making.
- Led automation governance committees to review project proposals, ROI, and compliance metrics.
- Partnered with security teams to ensure robust access controls and data protection for automated processes.

PROGRAM MANAGER I

04/2022 to 08/2023

CommLab India LLC | Hyderabad

- Directed implementation teams of 15 engineers for deployment of Workday and Learning Management Systems projects.
- Led end-to-end onsite pre- and post-implementation activities ensuring successful go-lives.
- Supervised a team of 4 Project Managers coordinating multiple concurrent implementations.
- Provided final implementation reports with Go-Live recommendations to business stakeholders.
- Conducted comprehensive user acceptance testing (UAT), ensuring system functionalities met client specifications.
- Monitored and evaluated team progress for master data collection, preparation, configuration, and testing activities.
- Developed integrated project scope, implementation plans, budget forecasts, schedules, and resource requests.
- Maintained stakeholder communications and served as single point of contact for issue resolution.
- Documented implementation processes and developed communication plans for system deployments.
- Captured business feedback and lessons learned after each deployment for continuous improvement.
- Managed JIRA repository for tracking implementation tasks and client ticket resolution.
- Conducted technical training and mentoring for implementation teams.

PROJECT MANAGER

04/2015 to 03/2022

CommLab India LLC | Hyderabad

- Managed end-to-end implementation of CRM (Customer Relationship Management) applications and Service Portals.
- Collaborated with engineering, product management, and stakeholders to define implementation requirements, goals, and timelines.
- Executed all SDLC phases including requirements gathering, design, configuration, testing, deployment, and maintenance.
- Implemented customized HRZ solutions aligned with organizational requirements and workflows.
- Led cross-functional teams including clinicians, IT professionals, and external stakeholders for solution delivery.
- Created detailed roadmaps and action plans, specifying clear milestones and deliverables for implementation.
- Facilitated Agile ceremonies to maintain team alignment and continuous improvement.
- Provided regular leadership updates on project status, risks, dependencies, and timeline changes.
- Drove user adoption through training programs and change management initiatives.

PROJECT COORDINATOR

05/2013 to 03/2015

Commlab India LLC | Hyderabad

- Coordinated execution across Engineering, QA, and Design teams, removing blockers and maintaining delivery efficiency.
- Managed all project tracking in JIRA/MS Project, ensuring 100% accuracy in reporting, sprint tracking, and client deliverables.
- Created and maintained project documentation, risk logs, and configuration repositories, ensuring smooth implementation handoffs.

COURSEWARE ENGINEER

01/2010 to 04/2013

Commlab India LLC | Hyderabad

- Designed interactive eLearning, instructor-led training (ILT) materials, and performance support tools.
- Applied adult learning principles and ADDIE/SAM models to optimize engagement and retention.

EDUCATION

Master of Science | Artificial Intelligence

08/2025

University of Cumberlands, Williamsburg, KY

Bachelor of Arts | Political Science

07/2017

Ambedkar University, Hyderabad, India

Diploma | Project Management

04/2010

MITSDE

CERTIFICATIONS

- Project Management Professional (PMP) by PMI
- Certified Scrum Master (CSM) by Scrum Alliance
